The duties of the elasses are promptly recommenced, and it is very important that all their members, new or old, should take their places at the opening of the session. The academical year extends from the let of October to the let of August, there being but one vacation—August and September. In the College, all the usual classes, under a full corps of professors, have for several years been pursuing the entire course of cellegiate studies equal to that procerbed in the older colleges of the North. At the recent commencement, the third graduating class received their academical degrees.

In the Grammar School, which immediately adjoins the College, the preparatory classes are carefully trained by competent instructors, under the supervision of the Professors of the College. Thus popils may enter the institution at an edy age, and pursue their entire course of study under the same direction until they graduate. Such students are admitted to all the privileges and advantages of their several classes, substituting in place of somo of the classical studies, such as are more necessary to a preparation for before of the reverse of the same and the classes. EPILEPSY, OR FAILING BICANESS, hysterical fits, convulsions, spasms, &c. It is well known that from time immemorial, physicians have pronounced epileptic fits incurable. It has builted all their skill and the boasted power of all medicine, and consequently thousands have suffered through a miserable existence, and at last yielded up their lives on the ALTAR OF INSANITY. ALTAR OF INGANITY.

The proprietor of the Vegetable Extract, however, feels no delicacy in saying that it can be sured. He would, therefore, respectfully invite physicians, and all others who are interested, to examine the testimony which is here offered. If it is deception, let it be exposed; but it it is true, then in the name of humanity no longer let it be said that epilepsy is incurable.

HANT'S VEGETABLE EXTRACT,

For sixteen years has been tested by many persons who have suf-fered with this dreadful disease, and in every case where it has had a fair trial has effected a permanent circ. Colonei Densiow, of Yonkers, New York, states that his daughter has been afflicted with fits for more than sinc years, and has been cured by the use of the Vogetable Extract.

Mrs. J. Bradley, 115 Orchard street, New York, states that she has been subject to fits for many years, and has been restored to perfect health (after every other means had failed) by the use of the Vege-table Extract.

Dr. Charles A. Brown, of Dover, Russell county, Alshama, who is one of the best physicians in the State, says that he has been much benefitted by the use of the Vegetable Extract, and that he unhesitatingly prescribes it in every case of epitlepsy which comes under his knowledge.

Curtis G. Hayberry, esq., formerly postmaster at Lime Mills, Crawford county, Pennsylvania, now hiving in Eric county, Pennsylvania, states that for many years past he has been sorely afflicted with fits, states that for many years past he has been sorely afflicted with fits, and is its now happy to state that a preservering use of Dr. Hart'v vegetable Extract into restored him to sound health, being entirely freed and the country of the family, has been so severely afflicted with epithons, a member of his family, has been so severely afflicted with epithons, a member of his family, has been so severely afflicted with epithons. Rev. Mr. Smith, Rector of St. Peter's church, Spotswood, New Jersey, who has been afflicted with epileptic fits for more than forty years, states that he has used Dr. Hart's Vegetable Extract, and his health has been so much improved that he hopes, by Divine blessing, to have no more fits.

EPILEPTIC FITS,

For twenty-seven years and six months, cured by the use of this truly wonderful medicine.

Read the following remarkable case of the son of Wm. Secore, esq. of Philadelphia, afflicted with epileptic fits twenty-seven years and six months. After travelling through England, Scotland, Germany, and France, consulting the most eminent physicians, and cynending for medicine, medical treatment and advice, three thousand dollars, returned with his son to this country in November last without receiving any benefit whatever, and was cured by using HART'S VEGETABLE EXTRACT.

I have spent over three thousand dollars for medical attendance. I was advised to take a tour to Europe with him, which I did. I first visited England; I consulted the most emintent physicians there in respect to his case; they examined him and prescribed accordingly. I remained there three months without perceiving any change for the better, which cost me about two bundred and fifty dollars, pocketed by the physicians, and the most that I received was their opinion that my son's case was hopeless, and results of the physicians, and the most that I received was their opinion that my son's case was hopeless, and Foundard, John Tourney, and France, and returned home in the month of November last, with my son as fur from being cuired as when I loft. Now, sir, faith without works I don't believe in. To say I shall be

THE LADIES' WREATH. EDITED BY MES. S. T. MARTES.

Morlyn & Eng. publishers, 143 Nansus street, New York.

A MONTHLY MAGAZINE, of 35 pages, with two embellishment
A a splendfil Steel Engraving, and a colored Lithographic Flower.
These engravings, will a few exceptions, are original, engrave expressly for the Wreath by the ablest artists. The twelve number make a beautiful volume of more than 400 pages, all original article from the pens of our best writers—written expressly for this work.

DESIGN OF THE WREATH.

This is not to cater for the victous appetite engendered and fed by much of the light literature of the day, nor is it simply to furnish agreeable and entertaining reading for a leisure hour. Its object is much higher. We aim to give our full recuntrywomen, and introduce into the PAMILY GIRCLE, a work containing A PURE CHRISTIAN LITERATURE—a work which shall easer as ensolding inducence upon all its readers, and help to sustain the great principles, industrous habits, and moral sentiments which lie at the twendation of our republican liberties and free institutions. In entering the PAMILY CIRCLE, we have endeavord, and shall still endeavor, to come as a messenger for good, both to parents and children—to pleast the came of Virtue, Intelligence, and Religion withit that screed enclosure, and to impress upon the minds of all its in mates the duties and responsibilities which grow out of the domestic

relations.

As a magazine of Literature and Art, the Warath is unsurpassed by any of its contemporaries—not excepting the Three Dollar Magazines. It is edited by Mrs. S. T. Marten, one of the very best writers in the country, whose moral worth and varied literary acquirements render her pre-eminently qualified to conduct a literary and religious magazine. Mrs. Martyn is sustained by a noble hand of contributors, among whom are many of our ablest male and female OPINIONS OF DISTINGUISHED MEN.

Judge Hays, Loncaster, Pa.

I have examined very extensively the periodical entitled "Tax
Lables" Wrearns," and hearily recommend it to all who desire a
sery chep, degant, and instructive periodical. The highly moral and
religious aims of the work, and the excellent lessons it contains in
relation to the formation and improvement of character—specially
female character—make it an admirable book for families, whilst the
elemence of the embellishments and the style is which it is "in the style."

relation to the formation and improvement of character—make it an admirable book for families, whilst the elegance of the embelishments and the style in which it is "got up," render it an ornament to the centre table.

Governor Coolidge's Recommendation.

I have derived much pleasure from the perusal of the "Ladita' Wearm," edited by Mrs. S. T. Martyn, and published in the city of New York. My examination of the work has led me to regard it as emmentally calculated to create a pure taste, and fix sound, moral, and religious principles in all who shall habitually read it. If it be found, as I think it will, supplanting the various periodical and ecanomal publications that by their sickly sentimentality, now enervite the minds, and corrupt the hearts of tens of floucands in our country, and stimulate victous propensities to early budding, the accomplished conductor of the work will not have labored in vain.

The highly virtuous tone of its reading matter, the beautiful style of its embellishments, the excellence of its typography, with the low price at which it is offered, all unite to very strongly recommend it to the patronage of every family in the land.
